

Wattstopper
MSTP Cable Harness for LMBC-300 Network Bridge, 6
Part No. LMBC-300-H6

The LMBC-300 Digital Network Bridge provides a segment network connection for a group of Digital Lighting Management (DLM) local network devices. This enables individual DLM local networks to be aggregated into a larger system, which, in turn, can be remotely managed from a Network Controller or a building automation system (BAS). The LMBC-300-H6 product comes with a wiring harness with connectors for 6 Wired Network Bridges (ordered separately).

Features & Benefits

- Component of Digital Lighting Management integrated control systems
Communicates all DLM local network data and device settings to a Network Controller and is compatible with DLM software
- Easy integration with BAS through use of standard BACnet objects to represent DLM local network device settings and states
Adds segment network functionality a to DLM local network
- Class 2 operation and plenum rated housing facilitate simple installation
DIN rail mounting bracket provided with the unit to facilitate box or panel mounting
- UL 2043 plenum rated

Specifications

General Info

Product Line	Wattstopper	UPC Number	754182939145
Country Of Origin	China		

Dimensions

Product Width US	6.0 in	Product Weight US	0.26 lb
Product Volume US	30.0 cu in	Product Depth US	10.0 in
Product Height US	0.5 in		

Additional Information

Product Environmental Profile	Yes
