

Wattstopper
Discontinued - Digital Commissioning Tool w/USB
Part No. LMCT-100

The LMCT-100-2 Wireless Configuration Tool is a handheld tool for advanced remote configuration of any Wattstopper Digital Lighting Management (DLM) system. The tool enables system and device modifications via pushbutton, without ladders or tools, as well as easy duplication of settings between DLM local networks.

Features & Benefits

Wireless advanced configuration capabilities for Digital Lighting Management systems

Component of Digital Lighting Management integrated control systems

Easy-to-read OLED screen

Micro-USB port allows easy updating of firmware

2-way IR communication for data upload, download, confirmation and storage

Easy-to-use navigation pad

Configures occupancy sensors, switches, room controllers, photosensors and DLM relay panels
