

## Wattstopper DLM Wireless Integrated Fixture Sensor & Controller

Part No. LMFS-601-W

The LMFS-601 is a wireless fixture sensor and controller that is compatible with all Wattstopper wireless DLM devices. The LMFS-601 includes a passive infrared (PIR) occupancy sensor and a closed loop photo sensor. It measures both motion and daylight contribution in order to automatically switch or dim lighting. The LMFS-601 is compatible with DALI drivers and standard 0-10V drivers for dimming and ON/OFF control signaling. It also provides the ability to communicate to other DLM enabled fuxtures in the space without any additional equipment.

## Features & Benefits

Built-in IPv6 Mesh and Bluetooth® low energy technology provides robust signal strength and reliable Custom programming using DLM Configuration App communication

Carrier sleeve and snap-in sensor make for quick and easy installation into fixture housing

Low profile design to maintain the fixture aesthetic

Completely scalable fixture level lighting control (LLLC)

PIR Sensitivity: The digital Passive Infrared sensors sensitivity level is adjustable and by default is set at 100% sensitivity.

Daylight Harvesting and Daylight Zones: By default, the daylight functionality within the LMFS-601 is disabled.

Grouping: In addition to simple room creation, custom groups can be created within the App to meet advanced energy code sequence of operations.

## Specifications

### General Info

Product Line	Wattstopper	UPC Number	754182947447
Country Of Origin	China		

### Dimensions

Product Width US	1.0 in	Product Weight US	0.03 lb
Product Volume US	5.07 cu in	Product Depth US	1.3 in
Product Height US	3.0 in		

### Technical Information

Sensor Type	Daylight, Occupancy	Indoor/Outdoor	Indoor
