Wattstopper

Discontinued - DLM 4-Partition Input/Output Interface, USA

Part No. LMIO-102-U

The LMIO-102 Partition Interface automatically coordinates lighting controls in flexible spaces with up to four movable walls equipped with contact closures. It is part of a Digital Lighting Management (DLM) system, and can reconfigure connected switches and occupancy sensors.

Features & Benefits

- Automatically reconfigures lighting controls for logical operation when movable walls are opened and closed
- Works with third party contact closure inputs
- Fits into standard single gang wallbox; optional DIN rail mounting
- Component of Digital Lighting Management integrated control systems
- Recalls 16 configurations for spaces with up to 5 partitioned areas and 4 movable walls
- Plugs to DLM local network via Cat 5e cables with RJ45 connectors
