

## Wattstopper DLM Cat5 Network Power Booster

Part No. LMPB-100

The LMPB-100 Digital Power Booster includes a high-efficiency switching power supply to add power to a DLM local network. It can be used with LMFC fixture controllers or any other Wattstopper Digital Lighting Management (DLM) controllers to allow integration of occupancy sensors, daylighting sensors and switches for energy-efficient lighting control. This device does not include a relay for load control.

## Features & Benefits

Plenum-rated controller with switching power supply

Can add power to any DLM Cat5e local network

Supports LMFC fixture integrated controllers

Designed to mount inside an LMZC-301 zone controller to increase low voltage power to a DLM local network

Plugs to other components using Cat5e cables with RJ45 connectors eliminating wiring errors

## Specifications

### General Info

UPC Number	754182938933	Country Of Origin	China
Product Line	Wattstopper
