

Wattstopper PIR 1 BUTTON WALL SENSOR ENGRAVED - ON OFF - IVORY

Part No. LMPW-101-I-ENG1

LMPW-100 Series Digital PIR Wall Switch Occupancy Sensors use passive infrared (PIR) technology to detect occupancy for energy-efficient control of lighting and plug loads. They also include one or two switch buttons for manual control of selected loads, and are part of a Wattstopper Digital Lighting Management (DLM) system

Features & Benefits

1-button Digital PIR Wall Switch Occupancy Sensor LMPW-100 Series Digital PIR Wall Switch Occupancy Sensors use passive infrared (PIR) technology to detect occupancy for energy-efficient control of lighting and plug loads. They also include one or two switch buttons for manual control of selected loads, and are part of a Wattstopper Digital Lighting Management (DLM) system

Passive infrared sensor with On/Off button(s) to switch selected load(s)

Component of Digital Lighting Management integrated control system

Quick access to Push n' Learn for system

personalization

Digital sensor with LCD display and programming pushbuttons

IR transceiver for wireless configuration and remote control

Plug to other components using Cat 5e cables with RJ45 connectors eliminating wiring errors

Specifications

General Info Product Line Color Wattstopper Ivory **UPC** Number 754182946754 Country Of Origin China Pre-Engraved Number of Switches Features 1 **Application Sector** Commercial Standard UL Occupancy Sensor Type

Technical Information			
Sensor Type	Occupancy	Number of Buttons	1
Amperage	8 mA	Indoor/Outdoor	Indoor
