

Wattstopper PIR 1 BUTTON WALL SENSOR ENGRAVED - ON OFF - LT ALM

Part No. LMPW-101-LA-ENG1

LMPW-100 Series Digital PIR Wall Switch Occupancy Sensors use passive infrared (PIR) technology to detect occupancy for energyefficient control of lighting and plug loads. They also include one or two switch buttons for manual control of selected loads, and are part of a Wattstopper Digital Lighting Management (DLM) system

Features & Benefits

1-button Digital PIR Wall Switch Occupancy Sensor

LMPW-100 Series Digital PIR Wall Switch Occupancy Sensors use passive infrared (PIR) technology to detect occupancy for energy-efficient control of lighting and plug loads. They also include one or two switch buttons for manual control of selected loads, and are part of a Wattstopper Digital Lighting Management (DLM) system

Passive infrared sensor with On/Off button(s) to switch selected load(s)

Component of Digital Lighting Management integrated control system

Quick access to Push n' Learn for system

Digital sensor with LCD display and programming pushbuttons

IR transceiver for wireless configuration and remote control

personalization

Plug to other components using Cat 5e cables with RJ45 connectors eliminating wiring errors

Specifications
