

LMPW-100 Series Digital PIR Wall Switch Occupancy Sensors use passive infrared (PIR) technology to detect occupancy for energy-efficient control of lighting and plug loads. They also include one or two switch buttons for manual control of selected loads, and are part of a Wattstopper Digital Lighting Management (DLM) system

Features & Benefits

<p>2-button Digital PIR Wall Switch Occupancy Sensor</p> <p>Passive infrared sensor with On/Off button(s) to switch selected load(s)</p> <p>Quick access to Push n' Learn for system personalization</p> <p>IR transceiver for wireless configuration and remote control</p>	<p>LMPW-100 Series Digital PIR Wall Switch Occupancy Sensors use passive infrared (PIR) technology to detect occupancy for energy-efficient control of lighting and plug loads. Specifications

General Info

Color	Black
UPC Number	754182946419
Countries Of Origin	China
Product Line	Wattstopper
Application Sector	Commercial
Type	Occupancy Sensor
Standard	UL

Additional Information

RoHS Conformant	Yes
Product Has Potential to Contribute to LEED	No
