

Wattstopper
DLM Shade Bus Cable Assembly, 5 Feet Plenum Rated
Part No. LMSH-SBCA-P05

LMSH-SB series cables have four wires and are designed to connect DLM shades and power supplies together. There are a variety of lengths and accessories that make cable selection and system layout easy and intuitive. The DLM shade control system can be wired together without tools using the wiring and accessories in the LMSH-SB series.

Features & Benefits

DLM Shade System has preconfigured wire solutions for plug and play wiring

Easy free topology wiring adapts to any building application

Preconfigured wiring on both the shade bus and DLM In-room bus (between power supplies and switches) eliminates wiring mistakes
