

Wattstopper
DLM Low Voltage 2-Button Shade Wall Switch
Part No. LMSH-SW102X

Legrand's series wall switches are low voltage device for manual control of shades in one or more locations. This device has 1 button and can control any shade motors connected to DLM shade controllers. The switches connect using standard DLM IRB RJ45 cables and have a counter balanced design that allows shades to be pulled into position from the hembar.

Features & Benefits

Available in four different switch configurations to support control of any shade project	Available in six color options: White, Black, Grey, Ivory, Light Almond and Red
Switches are pre-engraved with most common control configurations	Plug n' Go automatic configuration along with Pull n' Save and Push n' Learn for system personalization
Customizable buttons with LED status indicators	Matches DLM Lighting Control switches for consistent design of lighting and shade control
Includes system configuration button for easy system programming from the switch	IR transceiver for wireless configuration and remote control
Components of Digital Lighting Management integrated shade control system	Custom engraving or engraved and non-engraved button kits available

Specifications

General Info

Product Line	Wattstopper	UPC Number	842854000313
Application Sector	Commercial		

Dimensions

Product Width US	1.8 in	Product Weight US	0.15 lb
Product Volume US	22.8 cu in	Product Depth US	1.6 in
Product Height US	4.1 in		

Listing Agencies / 3rd Party Agencies

FCC Compliant	Yes	cUL Listed	Yes
