LS Series Slide Dimmers and Fan Speed Controls reflect Legrand innovation and dependability, and give you the ability to control your lighting and save energy. And with two functions in one, you can do more without having to cut into the wall or add additional wiring.

## Features & Benefits

Ergonomic design and solid, quality feel combine for smooth, easy operation and precise Electromagnetic and radio-frequency interference protection built in control.

Two single pole dimmers in the space of one. Exclusive, screw-pressure-plate back wire terminals save time, space and money. Designed for 12 and 14 gauge wire, stranded or solid. No-wire-lead design eliminates wire nuts.

Patented Snap-In Light Module (TM8LMCC, sold separately) transforms the dimmer into an illuminated dimmer. For covering patents, see [www.legrand.us/patents](http://www.legrand.us/patents).
