

**Wattstopper**  
**Low Voltage Switch, 2-Button w/LED, Lt. Almond**  
Part No. LVSW-102-LA

LVSW-100 Series Low Voltage Switches are lighting control devices that use conventional point-to-point low voltage wiring for control of single or multiple loads. Each button provides a momentary contact that is intended for use with compatible low voltage relay panels or similar lighting control panels or devices. Each button has an LED indicator that can serve as a status indicator or as a locator light.

## Features & Benefits

|   |  |
|---|--|
| Low voltage pushbutton switches for on/off control of one or more loads   | Compatible with LC8, LP8, LI and LMCP Series lighting control panels |
