

A Passive Optical LAN (POL) Splitter is used in place of a workgroup switch, optimizing resources with a simple, space-saving installation that provides benefits such as cost reductions, greater efficiencies, scalability, and a clear upgrade path. Compatible with Q-Series Rack Mount or Wall Mount Fiber Enclosures.

## Features & Benefits

M2 splitter cassettes have been designed to split 1 LC connection to 32 LC connections over a Passive Optical LAN

Higher Security: A POL supports 128-bit encryption

Simple Installation: A POL has a fraction of the equipment used in a traditional LAN

Single Fiber Two-way Transmission: Reduces cable bulk and increasing airflow in pathways

Energy Efficiency: A POL uses unpowered optical components

Future Proof Infrastructure: Scalable and has a clear upgrade path

Cost Reduction: A POL requires less power, cooling, and maintenance

## Specifications

### General Info

Product Line	Ortronics	UPC Number	662875016137
Country Of Origin	China	Application Sector	Commercial
Standard	TIA-568-C.3	Type	Cassette

### Additional Information

RoHS Conformant	Yes
