

The M4 2x32 POL Splitter is a point to multipoint cassette designed to split 2 SC connector to 32 SC connectors over a Passive Optical LAN (POL) that provides the capability to securely deliver voice, data, and IP/broadband video. A POL is an alternative to a traditional Ethernet LAN and is widely accepted as an ideal replacement of old copper networks. A POL allows you to optimize your resources with a simple, space saving installation and provides benefits such as cost reductions, greater efficiencies, scalability and a clear upgrade path

Features & Benefits

Energy Efficiency

A POL uses unpowered optical components

Higher Security

A POL supports 128-bit encryption

Future Proof Infrastructure

Scalable and has a clear upgrade path

Simple Installation

Simple Installation: A POL has a fraction of the equipment used in a traditional LAN

Cost Reduction

A POL requires less power, cooling, and maintenance

Single Fiber Two-way Transmission

Reduces cable bulk and increasing airflow in pathways

Versatile Installation

Splitter cassette loads into front of enclosure tray drawer face or mounting bracket

Specifications

General Info

Product Line	Ortronics	UPC Number	662875924685
Country Of Origin	Taiwan, Province Of China	Application Sector	Commercial
Standard	TIA-568-C.3	Type	Cassette

Additional Information

RoHS Conformant	Yes
