

Baffle rails allow 16-1/4 in, 24 in and 30 in deep airflow baffles to be mounted to the side of the ADJ 4-post racks, even when the mounting rails are set to a deeper dimension. The fixed version allows 16-1/4 in and 24 in baffles to be mounted to the 30 in deep racks.

Features & Benefits

Supports mounting of air baffles for airflow baffles that mount between Mighty Mo 20 channel, fixed or adjustable racks, direct intake and exhaust air on side flow network equipment from cold aisle to hot aisle.
