

MM20 UNIVERSAL CABLE TROUGH, 2X2X5.25, BLACK, QTY. 6
Part No. MM20UCT2X2-B

Universal cable troughs snap into the hex pattern on the Mighty Mo 20 channel racks and are used to create a front to rear or vertical trough on the inside or outside of the channel. They can be mounted in a row to create a continuous trough or rotated at 30 degree increments to support cables through directional changes. Up to 3 HiLOC harnesses can be toollessly mounted into each trough. The 2" x 2" size is equipped with slots to allow it to be joined to Mighty Mo Fiber Raceway.

Features & Benefits

Snaps into the hex pattern on MM20 channel racks: Creates a front to rear pathway for cables between racks.

Hex design: Allows trough to be rotated in 30 degree increments for pathway transition from horizontal to vertical.

HiLOC ready: Up to 3 HiLOC harness shells can be snapped into the cable trough providing Zero "U" connectivity for switches and servers.
