

Wiremold
Discontinued - NME1250AP Nonmetallic Wall-Mounted Wireless Access Point Enclosure
Part No. NME1250AP

The NME1250AP conceals commercial wireless access points in a durable ETL/cETL listed nonmetallic enclosure. Designed to provide a permanent location for wireless connectivity hardware within a building's communications infrastructure, the wireless point enclosure can be easily secured to any structure allowing optimal WiFi signal coverage to adjacent spaces while supporting industry standard POE (power over Ethernet).

Features & Benefits

Thermoplastic wall construction. Provides protection for expensive access point hardware and fragile antennae while allowing optimum placement for maximum signal performance.

Security lock included. Paintable Fog White in color, the enclosure includes a concealed key lock under a subdoor to prevent unauthorized access. All locksets are keyed alike.

Large capacity compartment. 13 3/4" high x 7 3/8" wide x 4 5/8" deep [349mm x 192mm x 117mm] interior provides space for most leading manufacturers' AP products, including Cisco Aironet 1250 Series.

Multiple mounting options. Enclosure can be mounted vertically or horizontally using included fasteners for optimum AP orientation.

Convenient termination point and raceway connectivity.

Communications cabling can be backfed or surface raceway fed using the integral raceway twistouts provided on all four sides of the enclosure (for Eclipse Series PN03, PN05, and PN10 Raceways).

Configurability. Antennas for Cisco Aironet 1250 can be configured either internal or external to the enclosure.

Flexible AP installation. User-configurable access point mounting system, with included strap hardware, supports a wide variety of AP configurations.

ETL and cETL Listed. Listed to U.S. and Canadian safety standards.

Specifications

General Info

Product Line	Wiremold	UPC Number	786776173147
Country Of Origin	China	Standard	cETLus Listed Communication Circuit Accessories: Meets Article 800 of NEC. Meets Article 60-308 of CEC.
