

Monitor the rain with your Weather Station.

The perfect addition to your Weather Station, the Netatmo Smart Rain Gauge sends rainfall data directly to your smartphone. Check rainfall at home in millimetres per hour remotely and in real time. The highly accurate Rain Gauge measures rain intensity as well as rainfall over the last hour and since midnight. View your data history to track changes in rainfall this month and over the last year or to see how much fell at home while you were away. Did you leave your washing out to dry or a window open? Receive an alert as soon as it starts to rain. You can also customize your notifications to receive an alert only once a certain amount of rain has fallen. With the Smart Rain Gauge, make your life easier by letting your Netatmo Weather Station master the rain!

## Features & Benefits

Get real-time rain notifications and measurements via your smartphone.

Receive an alert on your smartphone as soon as it starts to rain.

Easily plan activities with convenient, real-time rainfall information, and even track changes in rainfall over time.

Easily install it outdoors, up to 100 meters from your Weather Station's indoor module.

## Specifications

### General Info

Product Line	Pass & Seymour	Color	Black
Finish	Glossy	UPC Number	700730500213
Country Of Origin	China	Application Sector	Residential/Commercial
Standard	FCC and CE	Type	Accessory

### Additional Information

RoHS Conformant	Yes
