NUVO Series Four 8" Angled In-Ceiling Speakers
Part No. NV4IC8ANG

This 8" model utilizes Rose Aluminum tweeters and fiberglass woofers, and is finished beautifully with their completely rimless, magnetic grill. They also offer quick and secure installation by utilizing three dog legs, instead of the usual four, and includes pivoting tweeters. These tweeters are connected to a unique tweeter bridge that maximizes sound quality, looks great, and serves as a handle to hold the speaker by during installation. The NV-4IC8-ANG serves equally well for in-ceiling theater installation, as it does for targeted two channel audio installations. These speakers have a fifteen degree baffle that angles the woofer and tweeter towards the seating positions of the listener. Use these speakers to create an all in-ceiling, out-of-sight, home theater installation, or place them along a wall to make a targeted two channel listening environment.

Features & Benefits

8 ohm rated

Three dog leg design for easy installation

Unique tweeter bridge that also doubles as an installation handle

Pivoting tweeter

Magnetic rimless and paintable grill

Lifetime Warranty
