

Legrand keyed LC fiber adapter panels are available in configurations that are keyed on the front only (user's side) or on both sides (user's and technician's). The adapter panels are designed to fit Legrand Infinium HD rack mount enclosures, Infinium Modular Panels, Q-Series Rack mount and wall mount enclosures, and HDJ or TracJack Wall plates, and surface mount boxes for an end to end solution. Up to thirteen keys/ colors of connectors are possible with unique physical keying configurations.

Features & Benefits

Up to thirteen unique keying options/colors for a wide range of network security systems, easy identification and network management.

Keyed LC adapters have the option to be keyed in the front only (user's side) or on both sides (user's and technician's) depending on the security requirements.

Keyed workstation adapter modules are available for TracJack® and High Density Jack (HDJ) style Face plates and surface mount boxes for complete system design flexibility.

All Legrand keyed LC fiber products are engineered to be compatible with other Legrand products to provide an end to end, data center to desktop solution.
