

The aluminum I-beam design of ITray is perfect for industrial installations with large diameter cables in long span situations, minimizing total tray width and creating a smooth transition between straight sections and fittings. A structural offset in the sidewall creates strong, mid-span splices that need fewer supports. Each splice snaps in place and stays without holding. Additionally, only four bolts are needed for each splice reducing hardware needs by 50%. These features allow Itray to be installed up to 30% faster than standard tray.

Features & Benefits

Strong heavy gage steel construction

Specifications

General Info

| | | | |
|--------------------|------------------------|-------------------|---|
| Product Line | Cablofil | Finish | Hot Dipped Galvanized after Fabrication |
| UPC Number | 800388396395 | Country Of Origin | Mexico |
| Application Sector | Commercial, Industrial | Type | Accessories |

Dimensions

| | | | |
|-------------------|-------------|-------------------|----------|
| Product Width US | 2.0 in | Product Weight US | 21.73 lb |
| Product Volume US | 1.815 cu ft | Product Depth US | 49.0 in |
| Product Height US | 32.0 in | | |

Trade Programs

| | |
