

## Cablofil Flat Cover Connectors Channel-Style

Part No. P083049

The aluminum I-beam design of ITray is perfect for industrial installations with large diameter cables in long span situations, minimizing total tray width and creating a smooth transition between straight sections and fittings. A structural offset in the sidewall creates strong, mid-span splices that need fewer supports. Each splice snaps in place and stays without holding, Additionally, only four bolts are needed for each splice reducing hardware needs by 50%. These features allow Itray to be installed up to 30% faster than standard tray.

## Features & Benefits

For use with indoor.	outdoor.	or vertical flat covers.	Top
i oi asc with macoi,	outuoui,	or vertical real covers.	100

Top and bottom pieces are 1 1/2" wide.
