

The aluminum I-beam design of ITray is perfect for industrial installations with large diameter cables in long span situations, minimizing total tray width and creating a smooth transition between straight sections and fittings. A structural offset in the sidewall creates strong, mid-span splices that need fewer supports. Each splice snaps in place and stays without holding. Additionally, only four bolts are needed for each splice reducing hardware needs by 50%. These features allow Itray to be installed up to 30% faster than standard tray.

Features & Benefits

Attaches to the tray bottom flange.

For use with all series 1 flange-in ladders and ventilated/trough cable trays.

Available for series 1 only.

Supports the cable tray directly from a threaded rod without the need for an additional support member.

Threaded rod purchased separately.

Specifications

General Info

Product Line	Cablofil	Finish	Mill Galvanized Steel
UPC Number	800388518285	Country Of Origin	Mexico
Application Sector	Commercial, Industrial	Type	Accessories

Dimensions

Product Width US	2.685 in	Product Weight US	0.28 lb
Product Volume US	0.003 cu ft	Product Depth US	1.625 in
Product Height US	1.06 in		

Trade Programs

BAA	Yes
