

The aluminum I-beam design of ITray is perfect for industrial installations with large diameter cables in long span situations, minimizing total tray width and creating a smooth transition between straight sections and fittings. A structural offset in the sidewall creates strong, mid-span splices that need fewer supports. Each splice snaps in place and stays without holding. Additionally, only four bolts are needed for each splice reducing hardware needs by 50%. These features allow Itray to be installed up to 30% faster than standard tray.

## Features & Benefits

---

Strong heavy gage steel construction

## Specifications

---

### General Info

---

Product Line	Cablofil	Finish	Stainless 316
UPC Number	800388522664	Country Of Origin	Mexico
Application Sector	Commercial, Industrial	Type	Accessories

---

### Dimensions

---

Product Weight US	13.63 lb	Product Depth US	37.0 in
-------------------	----------	------------------	---------

---

### Trade Programs

---

BAA	Yes
-----	-----

---

### Technical Information

---

Working Load	650 lb
--------------	--------
