

Cablofil  
SB-6A-90VO24-12 AL 6H 90 OVR 24R 12W  
Part No. P320423

The aluminum I-beam design of ITray is perfect for industrial installations with large diameter cables in long span situations, minimizing total tray width and creating a smooth transition between straight sections and fittings. A structural offset in the sidewall creates strong, mid-span splices that need fewer supports. Each splice snaps in place and stays without holding. Additionally, only four bolts are needed for each splice reducing hardware needs by 50%. These features allow ltray to be installed up to 30% faster than standard tray.

## Features & Benefits

Includes splices and hardware

## Specifications
