

The aluminum I-beam design of ITray is perfect for industrial installations with large diameter cables in long span situations, minimizing total tray width and creating a smooth transition between straight sections and fittings. A structural offset in the sidewall creates strong, mid-span splices that need fewer supports. Each splice snaps in place and stays without holding. Additionally, only four bolts are needed for each splice reducing hardware needs by 50%. These features allow Itray to be installed up to 30% faster than standard tray.

Features & Benefits

Material: Aluminum Alloy 5052 - H32

Finish: Plain

Height (H): Tray height: 4", 5", 6", 7"

Width (W): Tray width: 6", 9", 12", 18", 24", 30", 36"

Specifications

General Info

Product Line	Cablofil	Finish	AL
UPC Number	800388228375	Country Of Origin	United States

Dimensions

Product Width US	22.789 in	Product Weight US	2.771 lb
