Wattstopper
Partition Sensor
Part No. PARTITION-SENSOR

The Wattstopper PARTITION-SENSOR uses an infrared transmitter/receiver pair to detect partition opening and closing and, in conjunction with other Architectural Dimming products, coordinates lighting and shade preset functions in areas such as partitioned meeting rooms or ballrooms. When used with the unique partitioning programming features of Design Center and the divide and combine widget on the Equinox touchscreens, the PARTITION-SENSOR allows for automation of partitioned spaces and visual indication of room lighting and shade status.

Features & Benefits

Uses visible and infrared light sources for high reliability & Flexible and easy mounting and wiring.

Power supply included

LED photoelectric switch for controlling partitioned spaces

Range between transmitter and receiver is 65' (20m) for mounting versatility

Range between transmitter and receiver is 65' (20m) for mounting versatility

Use with the Divide and Combine widget built into Equinox touchscreens and Design Center software

Specifications

General Info

Product Line	Vantage	UPC Number	840624132868
Country Of Origin	United States		

Dimensions

Product Length US	7.125 in

Technical Information

Sensor Type	Daylight
