

Clarity SNAP™ Terminated Copper Cabling System offers the above-the-standards performance of Clarity® connectivity in a custom terminated cable assembly system that's ready to plug and go. Its innovative modular design combines high performance and installer friendly features with the quick deployment and reliability of a factory terminated and tested cabling system.

Each Clarity SNAP cable assembly includes an identification label, which includes part number, performance level and serialized quality assurance number for future traceability.

Features & Benefits

Totally modular cabling system
Dramatically faster deployment of horizontal cabling and port replication

Factory-installed and tested terminations
Assembled in a controlled factory environment for consistent performance to elevated requirements confirmed by factory testing. Factory tested terminations reduce the time and cost of field testing

Reduced size of cable ends
Easier cable pulling and directing through pathways and racks

Clarity® 6A/10G, 6 and 5E performance
Premium performance you've come to rely on from Clarity connectivity, now in a terminated solution

Factory supplied identification
Each cable assembly includes part number and unique identifiers for traceability and association to its factory test report

Variety of options
Solutions tailored to your specific needs

Increased flexibility for MACs
Reduces total cost of ownership and allows re-use in the future (also reducing waste)
