

Clarity SNAP™ Terminated Copper Cabling System offers the above-the-standards performance of Clarity® connectivity in a custom terminated cable assembly system that’s ready to plug and go. Its innovative modular design combines high performance and installer friendly features with the quick deployment and reliability of a factory terminated and tested cabling system.

Each Clarity SNAP cable assembly includes an identification label, which includes part number, performance level and serialized quality assurance number for future traceability.

Features & Benefits

- Totally modular cabling system: Dramatically faster deployment of horizontal cabling and port replication
- Reduced size of cable ends: Easier cable pulling and directing through pathways and racks
- Factory supplied identification: Each cable assembly includes part number and unique identifiers for traceability and association to its factory test report
- Increased flexibility for MACs: Reduces total cost of ownership and allows re-use in the future (also reducing waste)
- Factory-installed and tested terminations: Assembled in a controlled factory environment for consistent performance to elevated requirements confirmed by factory testing. Factory tested terminations reduce the time and cost of field testing
- Clarity® 6A/10G, 6 and 5E performance: Premium performance you’ve come to rely on from Clarity connectivity, now in a terminated solution
- Variety of options: Solutions tailored to your specific needs

Specifications

General Info

Product Line	Ortronics	UPC Number	662875830221
Country Of Origin	Mexico		

Dimensions

Product Length US	30.0 FT
