

Wiremold Poke-Thru Devices provide power, communication, and A/V services to the open space areas of above grade floors. These poke-thru devices are available with either flush or pedestal type service heads and are used to feed individual workstations, modular furniture systems, conference rooms, and computer rooms. These poke-thru devices have TopGuard™ protection, which exceeds the UL requirements for use on carpet, tile, or wood floor applications. The purpose of this requirement is to ensure that water does not enter into the power compartment of the poke-thru device when exposed to cleaning equipment such as mops or shampooing equipment.

Features & Benefits

Includes insert stem with disposable plate and two-gang service head with housing, base, scrub water gasket, and barrier. Service head and insert install together to make a poke-thru assembly. Combine with faceplates (sold separately) to complete service head assembly. Shown assembled. Service head is shipped unassembled with the insert stem. NOTE: Assembled with scrub water gasket. For use on tile or carpet floors. Requires a minimum 3 1/16" (78mm) diameter hole.

Specifications

General Info

Product Line	Wiremold	UPC Number	786564021674
Country Of Origin	Mexico	Construction	Assembled
Number of Knockouts	2	Application Sector	Residential/Commercial
Standard	cULus Listed Metallic Outlet Boxes: File E2961 Guide QCIT. cULus Listed Nonmetallic Outlet Boxes & Fittings Classified for Fire Resistance: File R8209 Guide CEYY. Meets Article 300.21, 300.22[C] & 314 of NEC.	Type	Poke-Thru
