

Wiremold
RC9AM2STC Single-Service Furniture-Feed Poke-Thru Device Cover Assembly
Part No. RC9CM2TCAL

Furniture Feed Style Poke-Thru Devices are an excellent solution for feeding power and communication services to modular furniture systems in an open space, above grade floor environment. Every Wiremold Poke-Thru Device comes with built-in TopGuard protection, an industry-leading design that meets and exceeds UL scrub water exclusion requirements for tile and carpet floors. TopGuard protection prevents water, dirt, or debris from entering the power and communication compartments through the service head or floor fittings. All Wiremold Furniture Feed Style PokeThru Devices can be installed on tile, carpet, or wood covered floors and are an excellent solution for both new or retrofit construction. Typical applications include commercial office buildings, financial institutions, and government facilities.

Features & Benefits

Complete with combination 1 1/4" and 2" trade size threaded conduit openings and closure plugs. Must be used with a conduit connector (not included) at the adapter assembly plate to maintain fire classification. Finish flange/cover assembly available in gray (GY), black (BK), and brushed aluminum (AL). NOTE: Assembled with scrub water gasket. For use on tile or carpet floors. RC9AM2TC Series Poke-Thru Devices require a 3" (76mm) diameter hole. Not designed to work with bare concrete or terrazzo. Floor covering thickness 1/8" minimum.

Specifications
