

**Wattstopper**  
**Astronomic Time Switch, 800W, Ivory**  
Part No. RT-200-I

The RT-200 Astronomical time clock and timer switch automatically turns lighting or other loads on and off according to user programming. It replaces standard single-pole wall switches for energy savings and security.

## Features & Benefits

Turns lights on and off relative to dusk or dawn, or at selected times of day on selected days of the week

Shipped in default 2 hour countdown time, easily changed to other lengths or none.

Includes eight programmable control schedules

Bright OLED display for clear viewing from a wide angle

Ideal for any application where precise time-based control is desired

Ideal for meeting California Title 24 Residential Exterior Astronomical Time-Switch with max 6 hour countdown requirement
