

Features & Benefits

Molded of rugged .065" thick polycarbonate.

Seamless, sleek, super smooth construction provides no dirt-catching channel around plate's perimeter.

Two-piece plastic subplate bridges recessed boxes and uneven sheet rock. Fixes floating installations.

An extra 1/8" width and height than standard size wall plates for more tolerance in covering ragged sheet rock openings.

Automatic alignment pins ensure that devices are properly positioned so that wall plates fit perfectly.

For covering patents, see www.legrand.us/patents.
