

Wiremold
USB Upgrade Kit - Cord ended
Part No. TBUSBKIT

Current trends in workplace design are allocating more open space for meetings and collaboration. This trend presents a challenge for routing and managing the “last meter” of cables from the infrastructure to the point-of-use. Furthermore, connectivity and power configurations that are required to help business run smoothly, change quickly as new technologies are introduced. Wiremold® Meeting Room Solutions solve all these issues with the new InteGreat™ Series of products. InteGreat™ Products are specifically designed to fit together, protecting the routing of power, communication and A/V cables from the point-of-use to the building infrastructure. The InteGreat™ Series is also designed to work with other Wiremold products, such as Wiremold OFR Series Overfloor Raceway and Wiremold Poke-Thru Devices. InteGreat™ Products organize, protect and hide “the last meter” of cabling, as well as providing ready accessibility for future technology upgrades.

Features & Benefits

Upgrade your existing Integreat A/V Table Box to include USB TBUSBKIT Charging. The TBUSBKIT works with TB672APBK or TB672APAL Boxes. The USB Charger has 2 USB-A ports, 3.1A shared. Complete upgrade instructions are included

Specifications
