HDJ 3.5mm STEREO TRS JACK

High Density Jack (HDJ) 3.5mm TRS to 3.5mm TRS jack coupling interface for transmitting high quality audio signal. The easy to install, rear-load footprint mounts in HDJ Series workstation mounts and patch panels. The 3.5mm stereo jacks are often used to interface with a variety of devices such as computers, portable audio, microphones, and headphones.

HDJ35ST

Features & Benefits

- 3.5mm Jack: High quality Tip, Ring, Sleeve (TRS) jack ensures secure connectivity with Tip, Sleeve (TS) or TRS plugs for delivering stereo audio, balanced mono audio, or conducting other applications that utilize 3 pole connectivity.

- Low Profile: Recessed 3.5mm jack helps minimize or eliminate snagging, also providing a more pleasing aesthetic.

- Icon compatible: Icons are blank, for customization and pad printing, for labeling: Supports 606 designation requirements.

- High Density Jack Footprint: Supports multiple applications, from Workstation Mounting Solutions to Patch Panel installations, supporting up to 48 ports per 1RU

- Rear Loading:Preferred mounting for panels, with quick and easy installation
