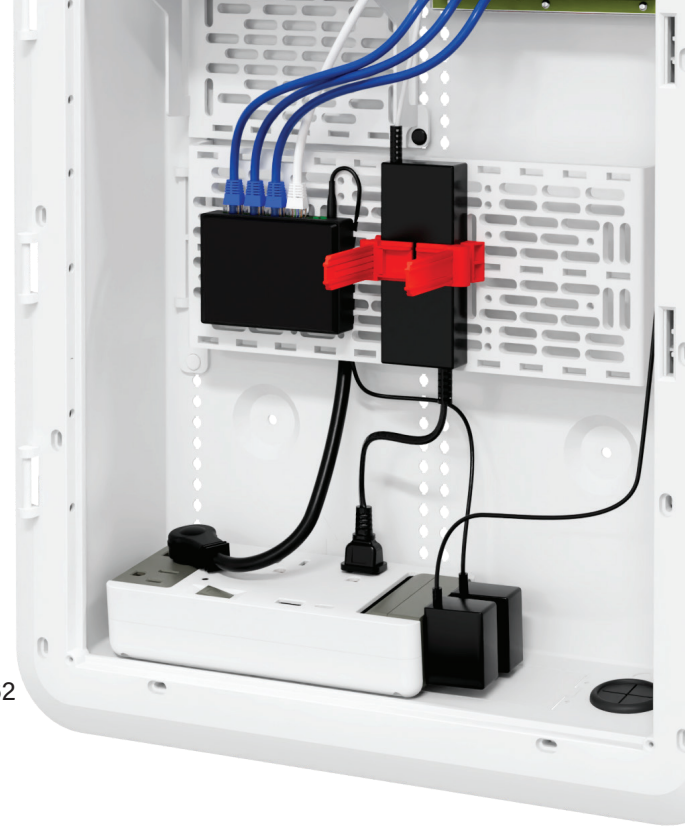
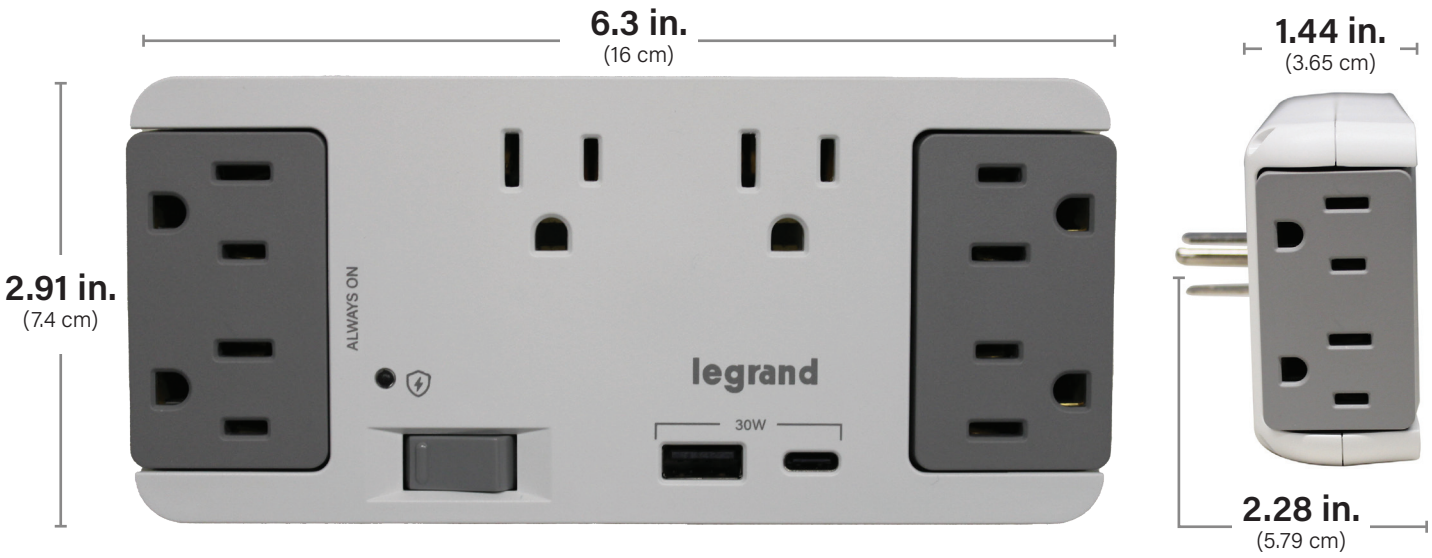
ON-Q

6 Outlet Enclosure Surge Protector with One USB-A and One USB-C

Compatible with all On-Q Enclosures

The On-Q AC1062 Surge Protector offers a reliable power solution with six outlets (two ALWAYS ON), one USB-A port, and one USB-C port with up to 30W of power delivery to accommodate both larger plugs and alternative USB powered devices. Four rotating outlets provide flexibility and easy access, making it ideal for managing varied plug sizes. Designed for seamless compatibility with all On-Q enclosures, both plastic and metal, it plugs easily into the existing outlet for immediate use. Equipped with a surge protection indicator light and a convenient toggle On/Off switch to easily power cycle devices, the AC1062 ensures a secure and user-friendly experience.





90° rotating outlets for easy access and larger plugs.

USB-A and USB-C with up to 30W power delivery for added power options.

Green light confirms your devices are protected and the toggle On/Off switch allows for an easy power cycle when needed.
