

Q TO INFUSION SOLUTION

Controllers

InFusion is the latest, most advanced home automation system. Existing Q Systems may be upgraded to InFusion Systems with minimal cost to the homeowner and limited effort for the Vantage dealer.

The InFusion control system exceeds Q in every way, boasting A/V and touchscreen integration, mobile control, advanced keypad functionality, energy management capabilities, support for Vantage Driver Tools, and more. The InFusion platform is a true futureproof system, one that will remain at the forefront of the automation field for years to come.

Homeowner Benefits

- Future proofing your technology
- Provides exciting new features such as:
 - A/V
 - Touchscreen integration
 - Mobile control
 - Advanced keypad functionality
 - Energy management capabilities
- Extends the warranty of the existing system for an additional year
- New five year warranty on for new products added
- Improved serviceability of product and platform
