ENCLOSURE FOR NETWORK PRODUCT

LMNC-ENC1

NEMA1-rated enclosure

Compatible with LMJA Network Controller, LMBR-650, Network Switches and Router.

Shown with LMJA Network Controller installed

Isolated Class 1 and Class 2 wiring

DIN rail mounting for easy installation or removal of Network Controller

DESCRIPTION

The LMNC-ENC1 is a surface-mount NEMA1-rated enclosure with a DIN rail for mounting one LMJA Network Controller with a removable cover. The conduit entrances and enclosure sections for high voltage (Class 1) and low voltage (Class 2) wiring are completely separated.

APPLICATIONS

The LMNC-ENC1 allows a Network Controller to be installed in an electrical room or other location with similar requirements. The enclosure accommodates one LMJA Network Controller.

SPECIFICATIONS

- Input voltage: 120VAC, 50/60Hz
- Quadruplex receptacle for connection of LMJA Network Controller plug-in power supply
- Barrier between high and low voltage
- DIN rail for mounting LMJA Network Controller includes locking tab
- Includes room to house Wattstopper 5, 8, and 16 port network switches, as well as a RACCESS modem
- Housing: NEMA1 surface-mount enclosure with screw-on cover, suitable for damp locations
- UL and cUL listed
- Five year warranty
