
BROAD CONNECTIVITY SOLUTIONS IN A COMPACT FLOOR BOX

The CAF3 floor box has two separate compartments that support up to three gangs of communication, power, and A/V devices. This unique floor box is compatible in both raised floor and wood floor applications, and multiple finish options allow it to seamlessly blend in with the surrounding environment. The compact design is ideal for settings such as retail, education, healthcare, and commercial office applications; places where conventional floor boxes may be excessive.

FEATURES & BENEFITS

- **Compact design -** You can now bring your power, communication, and A/V connections in a small package.
- **Three-gang compartments/openings -** To accommodate power, communication, and A/V needs you require.
- **Versatile -** Designed to be installed in both raised and wood floors.
- **Meets NEC Section 300.22(C) -** Suitable for use in air handling spaces and raised floor plenums.
- **Hinged door with pull handle -** Allows the cover to be easy to open a full 180˚ which provides easy access to devices inside the floor box.
- **Easy to install -** For new work and old work applications. Toggle clamps allow for easy and quick installation. Saving time and money.
- **Compatible with FloorPort™ Series covers -** Offers a variety of finishes to help blend in with the surrounding environment.
- **Pre-wired option -** Reduces labor costs for field installation.
- **Trade-sized knockouts -** (2) ½" knockouts, and (2) ¾" knockouts that can accommodate multiple combinations of power, communication, and audio/video services.
