PRODUCT BULLETIN

P&S While-in-Use Cast Covers

legrand®
Pass & Seymour

September 2011

Designed with heavy-duty aluminum for "Extra-Duty" applications, P&S While-in-Use Cast Covers are built to take on the worst weather, all while meeting regulatory requirements for coverage of power outlets in wet locations. Install covers without removing the electrical device thanks to keyed mounting holes. And, a corner hinge allows for vertical or horizontal mounting. The product also allows a cord to be inserted and used while protecting the outlet from wet conditions.

WIUCAST1

Features & Benefits

- Compliant with *National Electric Code*® (*NEC*®) Section 406.8(B)(1) for wet locations.
- UL listed for "Extra-Duty" applications.
- Heavy cast aluminum construction.
