Mounting Straps & Cover Kit

INSTALLATION INSTRUCTIONS

Installation Instruction No.: 1 007 588 – February 2008

Wiremold / Legrand electrical systems conform to and should be properly grounded in compliance with requirements of the current National Electrical Code or codes administered by local authorities.

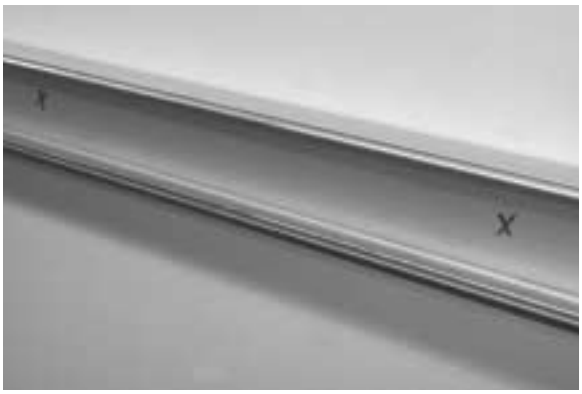
All electrical products may present a possible shock or fire hazard if improperly installed or used. Wiremold / Legrand electrical products may bear the mark as UL Listed and/or Classified and should be installed in conformance with current local and/or the National Electrical Code.

IMPORTANT: Please read all instructions before beginning.

Products Covered: *AL3000, AL3300*

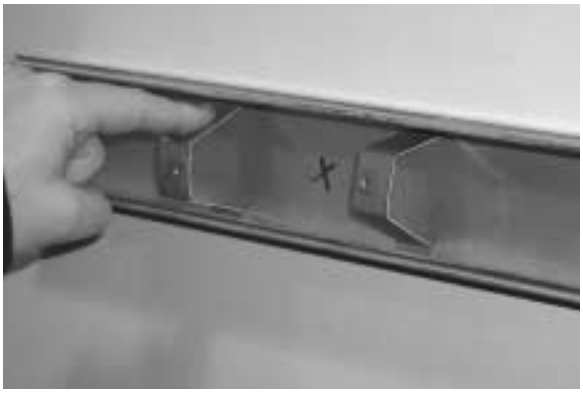
NEW INSTALLATION

Step 1 Install raceway base.
Step 2 Mark locations for devices.



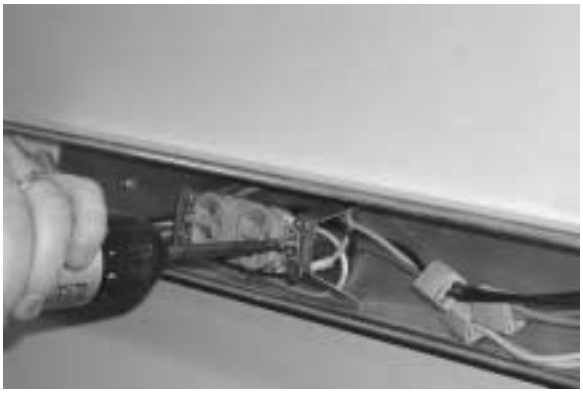
Step 3 Install device mounting straps (2 for each device) at those locations.

a. Engage device straps to side walls of raceway base.
b. Tuck flanges of strap underneath the lower ridge of the raceway base one leg at a time.



Step 4 Position straps at appropriate mounting distances for the device.

Step 5 Wire all devices and mount to straps.



Step 6 Mount all device plates using provided screws.

Step 7 Measure distance between plates and cut necessary covers to match.

Step 8 Install covers.

EXISTING INSTALLATION

To install straps to existing installations, remove all covers and follow steps 3 through 8 as applicable.
