1. Introduction

The On-Q/Legrand Universal Mounting Plates (see ***Figure 1***) are designed to easily mount a variety of products in an On-Q style enclosure.

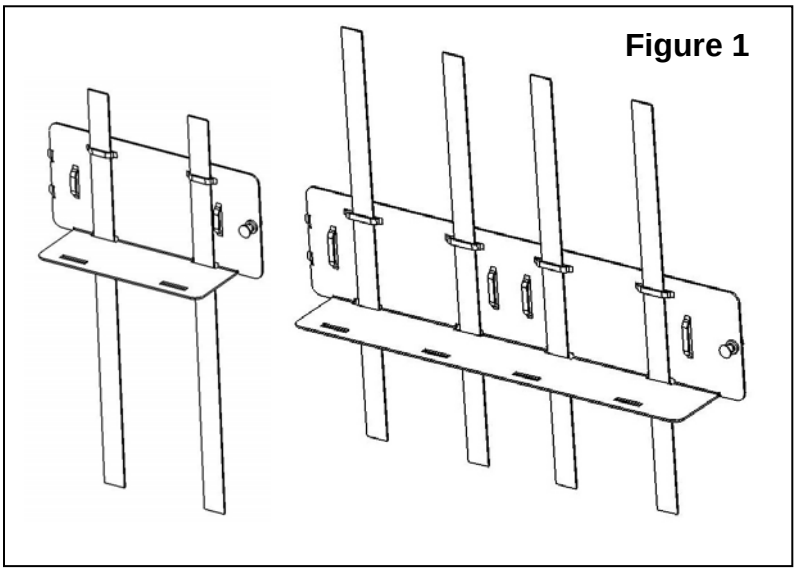

Figure 1

2. Description

The On-Q Universal Mounting Plates are available in half-width (P/N **364896-01**) or full-width (P/N **364904-01**) versions. The half-width version comes with two Velcro® hook and loop style straps used to secure products, while the full-width version comes with four straps. Each plate has multiple slots for attaching products of varying thickness and in either vertical or horizontal orientation.

3. Installation

The On-Q Universal Mounting Plates are typically installed during the "trim-out" phase of a new installation or associated with an upgrade for an existing installation.

a. Align and insert the stationary tabs on the left hand side of the plate into the square slots in the enclosure and use the push-pin on the right side of the plate to secure the plate to the enclosure.

b. Use the hook and loop straps provided to firmly mount the product to the plate (**see *Figure 2***).
