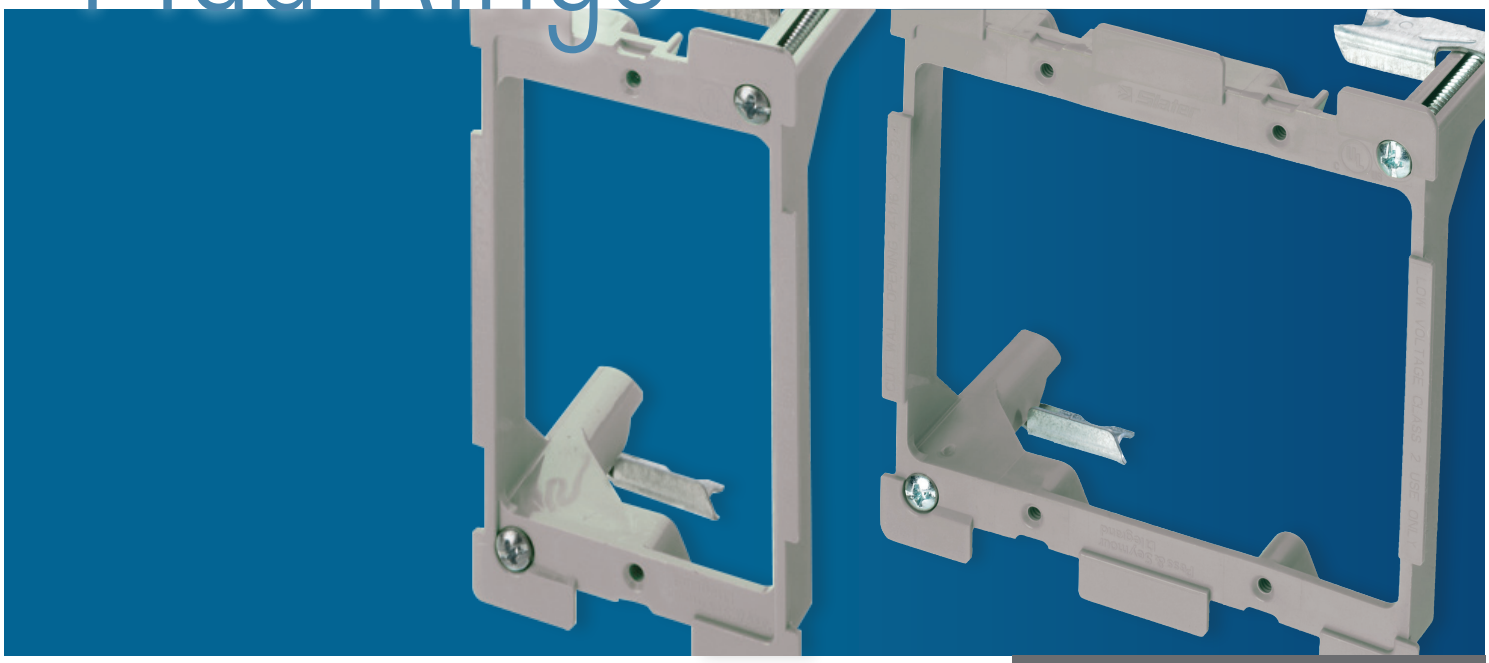
Mud Rings



LEGRAND HAS EVERYTHING YOU NEED...

The On-Q line of low voltage brackets and mud rings are durably crafted for easy alignment and visibility. Designed with spacious openings and stabilizer tabs, they keep wire-pulling simple whether for retrofit or new construction jobs. Available in single, double, and triple-gang models.

FEATURES

- Spacious opening accommodates large devices and facilitates wiring process
- Reliable, side stabilizer tabs keep it aligned with the stud
- Rigid plastic retains shape for ease of alignment during installation
