Studio Design features elegant titanium edging and a screwless finish

Camera includes auto day/night features to provide crisp color images during the day and clear black and white video at night

CM5451-WH
Ball Camera and LCD Kit

INNOVATIVE TECHNOLOGY

FLEXIBLE VIEWING OPTIONS

Camera System enables viewing of camera images via the LCD Console or on any TV with the new TV Display Interface. System handles up to four weather-resistant cameras, and allows Internet monitoring when combined with IP Video Server.

INVENTIVE PRODUCTS

Our newest addition to the line – the Color IR Camera – offers a color view of the home's surroundings during daylight hours while reverting to vivid black-and-white imagery in low-light situations. The unobtrusive look of the Ball Camera allows it to blend into any decor. It features in-ceiling and in-wall mounting capabilities and can be placed inside or outside the home.

Studio LCD Console (HA500-XX)

Color IR Camera (CM1029)

SYSTEM FEATURES

- Up to four cameras per system
- Any combination of up to four LCDs or TV Display Interfaces per system
- Efficient Cat 5 installation
- Color Studio Ball Camera is optimized for low light conditions
- Color IR Camera's 24 IR LEDs ensure a vivid, clear picture, even in ultra low light environments
- Indoor or outdoor installations

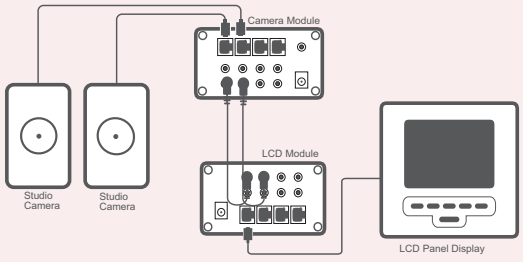
WIRING DIAGRAM



INSTALLATION AT-A-GLANCE:
CAMERA SYSTEM

1. Install the camera module and the LCD module in the On-Q enclosure.
2. Run a single Cat 5 cable from the camera module to each camera location.
3. Install the cameras in standard single gang boxes throughout the house, either in the wall or in the ceiling.
4. Run a Cat 5 cable from the LCD module to the location of the LCD console, installed in a standard triple gang box.
5. Connect a patch cable from the LCD module to the camera module.
