Broadcast Intercom Room Station

COMPATIBLE WITH

INTUITY

KEEP THE CONVERSATION FLOWING THROUGH YOUR ENTIRE HOME

with the On-Q Broadcast Intercom Room Station (IC7000-XX) from Legrand. Perfect for getting everyone up and out the door on time, or gathering the family together for movie night, this intercom provides easy and accessible whole-home communication — making room-to-room contact fast and convenient, no shouting required. Plus, with additional monitor functionality, the IC7000 also provides peace of mind, enabling users to listen for the baby's cries, a waking toddler, even an elderly parent in need of help, ensuring everybody is always safe and sound.

The On-Q Broadcast Intercom Room Station integrates with Legrand's Intuity Home Intelligence, for superior and unified home control of your lights, entertainment, security, comfort and convenience, and more.

FEATURES

- Compact, single gang intercom unit provides effortless, simultaneous communication for the entire home
- Features hard button controls for answer the door, room monitoring, and Do Not Disturb
- Integrates with the Intuity automation system for superior and unified home control of lights, security, audio, comfort and more
- Installs and troubleshoots easily, with simple RJ45 plug design
- Available in Legrand's radiant fit and finish for clean, consistent color and design

BENEFITS

Whole-Home Communication: Whether calling the kids to dinner, or asking for an extra pair of hands in the garage, Legrand's Broadcast Intercom Room Station lets you keep in contact with the entire family – easily and effortlessly.

Added Convenience: Never waste a step! When paired with On-Q Video Door Entry, the IC7000 enables you to always check who is at the door from anywhere in the house with built-in ease.

Peace of Mind: Sleep easier with an ear on your infants, toddlers, even elderly parents, with the intercom's room monitoring functionality.
