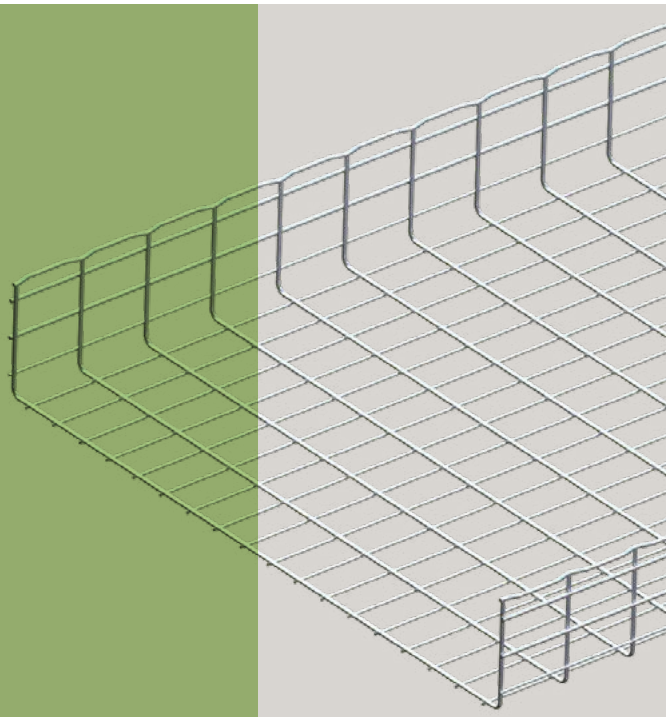
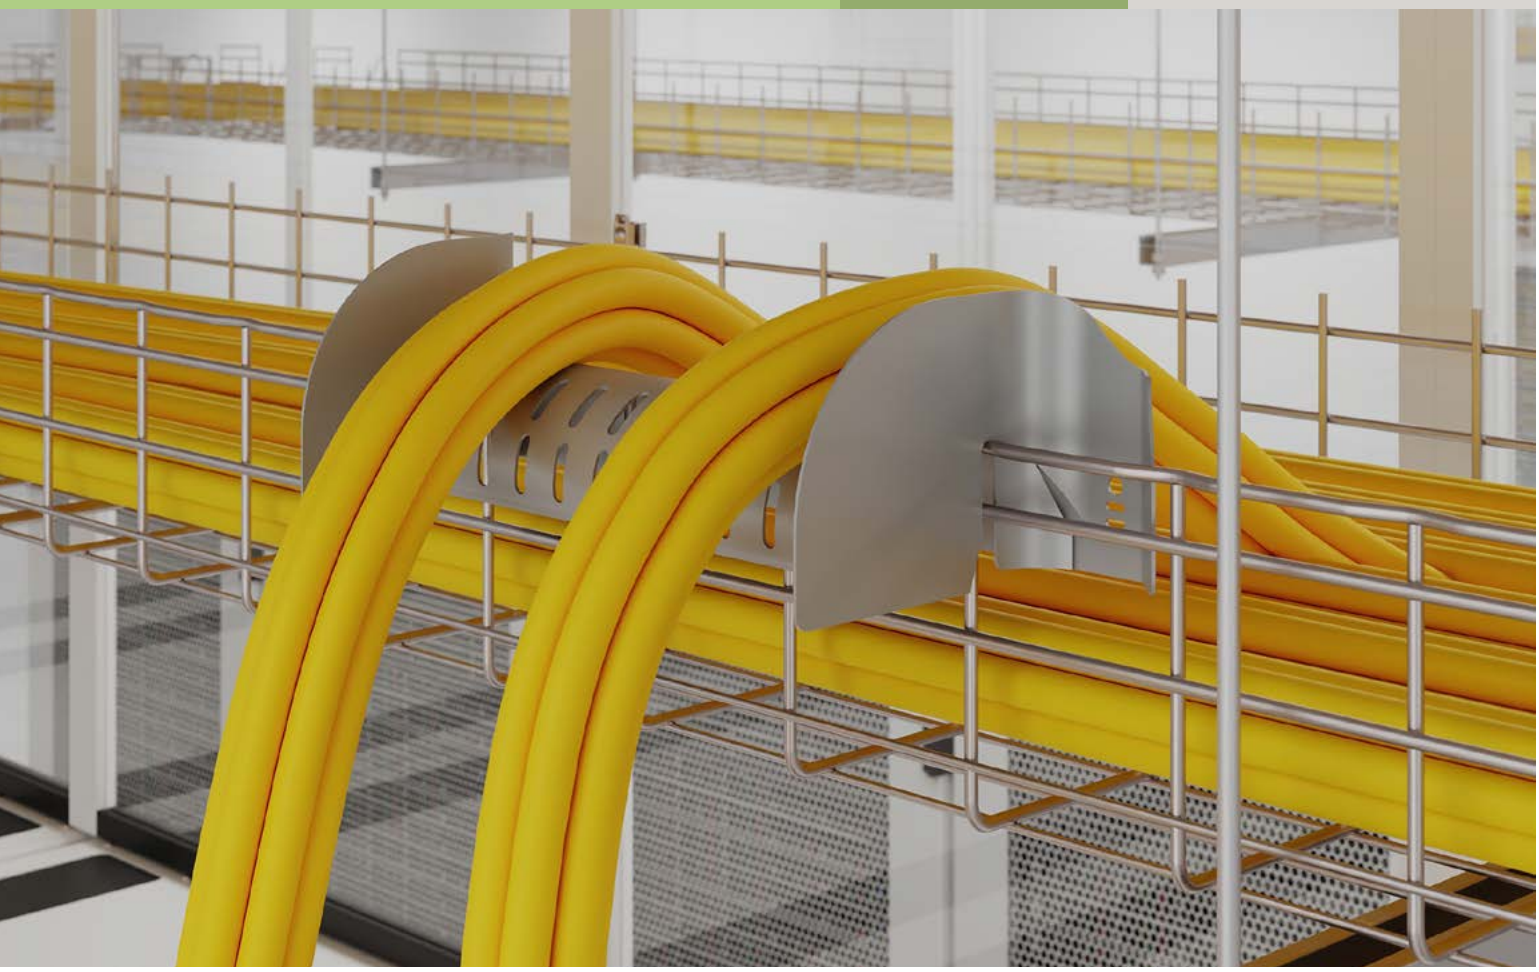
WIRE MESH CABLE TRAY





#LegrandImprovingLives

legrand®

With 160,000 miles of tray installed across the globe...

Legrand Wire Mesh Cable Tray is the proven choice for reliable cable management.

Engineered for optimal airflow, this adaptable system minimizes heat buildup to maximize cable loads. The open-access design simplifies cable routing, management and future upgrades, while the modular construction allows for fast, scalable modifications as infrastructure evolves.

Faster Installs. Lower Costs.

Designed for a quick, safe installation. Simple cut-and-join system for easy on-site modifications.

Safe-T Edge Design

T-welded edge prevents cable damage during installation and pull-through.

High Load Ratings

Built to support large volumes of fiber optic and data cables.

Optimized Wire Diameters

Patented design balances load capacity with lightweight handling for easier, faster installs.

Durability You Can Trust

Constructed with premium steel wire and available in a variety of finishes for any environment.

Sizes & Configurations

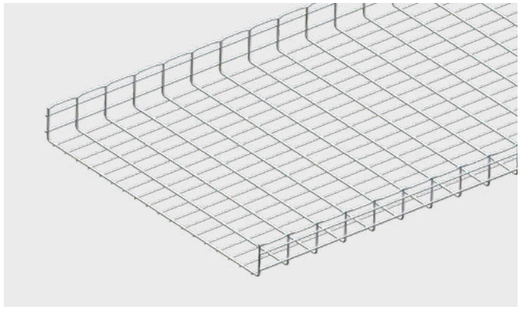
Legrand Wire Mesh Cable Tray is available in a wide range of widths, depths and finishes to match the needs of any project. From smaller runs to high-capacity trays for hyperscale data centers, every option is designed to deliver strength, safety and adaptability.

Widths: 2″, 4″, 6″, 8″, 12″, 18″, 20″, 24″, 30″ and 36″

Depths: 2″, 4″ and 6″ standard options

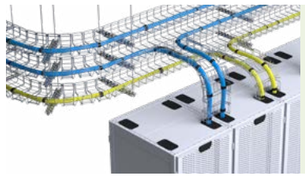
Lengths: 10′ standard tray lengths for quick installation

Finishes: Electrogalvanized, High-Resistance (HR), Stainless Steel and Powder Coated



A Complete System

Our Wire Mesh Tray is more than just a tray -- it's a comprehensive cable management solution. We offer a range of splices, supports, accessories and finishes so you can configure the right system for any jobsite, no matter the size or complexity.

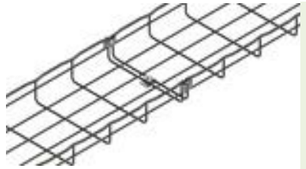


Cablobend™

Gives you the freedom and flexibility to create the bends, drops, offsets and elevation changes that you need.

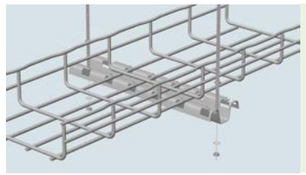
Security Kit

Your frontline defense against cyber attacks and physical cable tampering.



Splices

Easily create fittings and tray connections onsite and experience complete freedom in routing.



Supports

Trapeze supports, standoffs, wall brackets and more.

Inserts

Provide both function and a professional appearance.

Cable Dropouts

Select the right dropout solution for your unique layout needs.
