

# 65W Hospital Grade USB Receptacle

## Powering Devices that Power Patient Care

For healthcare facilities that need fast, reliable and code-compliant device charging, Legrand's 65W Hospital Grade USB Receptacle offers the first dual 65W USB-C Power Delivery solution designed to meet hospital grade standards while streamlining installation and supporting modern clinical workflows.

Designed to support the growing use of tablets, mobile devices and digital needs in patient rooms, nurses' stations and waiting areas, this receptacle delivers unmatched charging speed, safety and convenience.

### Dual 65W USB-C Power Delivery Ports:

Fast and powerful charging without bulky adapters to support clinical workflows and recordkeeping

### GaN Technology:

Leverages latest cutting-edge technology to provide industry-leading efficiency and reliability

### Hospital Grade & Fed Spec Compliant:

Meets vigorous testing standards and capable of withstanding heavy use to serve a wide range of power needs

### Built-In Status Indicator Lights:

Visual feedback on device charging status

### Wire Leads for Simplified Installation:

Pre-stripped leads allow for quick and easy wiring, even in tight boxes

### Tamper-Resistant Black Shutters:

Provides added safety while maintaining a sleek appearance

### Compact, Dual-Port Design:

Both USB-C ports share power but can independently deliver up to 65W for flexible charging of one or two devices simultaneously

### Range of Color Options:

Matches a variety of healthcare facility design preferences
