PARTS INCLUDED

- 6 x Barriers
- 6 x Screws
- 12 x Rubber Grommets

PRODUCT SAFETY

When using electrical equipment, basic safety precautions should always be followed, including the following:

- Do not mount near gas or electric heaters or let power supply cords touch hot surfaces.
- Equipment should be mounted in locations and at heights where it will not readily be subjected to tampering by unauthorized personnel.
- The use of accessory equipment is not recommended by Legrand as it may cause an unsafe condition.
- Do not use this equipment for other than the intended use.

DESCRIPTION

The EN-CP-CKIT is an accessory kit designed for the Wattstopper PLUS EN-CP panel series, such as the EN-CP24-10V and EN-CP12-10V. This kit includes isolating metal barriers and grommets that can be easily installed using standard hand tools. It is designed to assist with Class 2 0-10V dimming installations.

The EN-CP panels are factory-configured for Class 1 0-10V dimming. To convert them to Class 2 0-10V dimming, the EN-CP-CKIT must be used. Each kit can convert up to 12 0-10V circuits. For a full conversion of all 24 circuits in an EN-CP24-10V panel, two EN-CP-CKIT kits are required.

INSTALLATION

NOTE: Each barrier is designed to isolate two 0-10V circuits when installed. The barrier separates odd-even pairs of circuits (such as 1 & 2, or 13 & 14)

1. Install included rubber grommets in the 0.44" pre-drilled holes in panel interior metal.
2. Feed both pairs of 0-10V wires through the rubber grommets into the center low voltage compartment.
3. Place the isolating barrier over the two pairs of 0-10V wires. Align the notch and edges with the panel interior and ALC nipples, respectively.
4. Use one included screw to fasten the barrier from the low voltage compartment of the panel.

WARRANTY INFORMATION

Wattstopper warrants its products to be free of defects in materials and workmanship for a period of five (5) years. There are no obligations or liabilities on the part of Wattstopper for consequential damages arising out of, or in connection with, the use or performance of this product or other indirect damages with respect to loss of property, revenue or profit, or cost of removal, installation or reinstallation.

INFORMATIONS RELATIVES À LA GARANTIE

Wattstopper garantit que ses produits sont exempts de défauts de matériaux et de fabrication pour une période de cinq (5) ans. Wattstopper ne peut être tenu responsable de tout dommage consécutif causé par ou lié à l'utilisation ou à la performance de ce produit ou tout autre dommage indirect lié à la perte de propriété, de revenus, ou de profits, ou aux coûts d'enlèvement, d'installation ou de réinstallation.

INFORMACIÓN DE LA GARANTÍA

Wattstopper garantiza que sus productos están libres de defectos en materiales y mano de obra por un período de cinco (5) años. No existen obligaciones ni responsabilidades por parte de Wattstopper por daños consecuentes que se deriven o estén relacionados con el uso o el rendimiento de este producto u otros daños indirectos con respecto a la pérdida de propiedad, renta o ganancias, o al costo de extracción, instalación o reinstalación.
