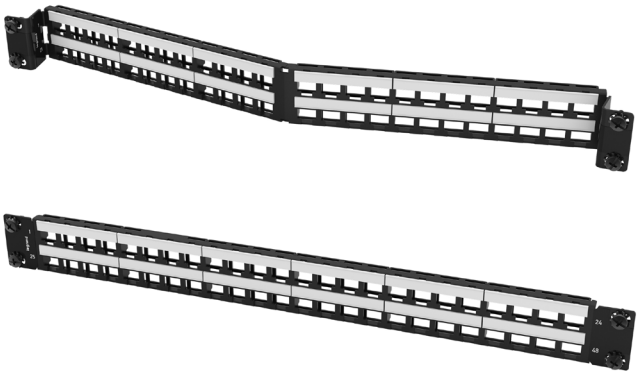
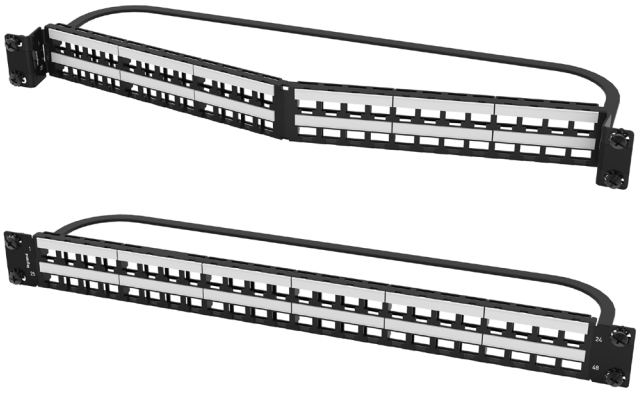
#LegrandImprovingLives

1 RU 48-Port High-Density Keystone Panel
Product Brief

This 19-inch, 48-port blank keystone patch panel offers configuration flexibility in a high-density single rack mount space. Designed to fit any Ortronics keystone insert, it ensures a secure fit and professional finish. The panel is compatible with any 19-inch wall or floor mount rack. The inserts sit flush with no gap, ensuring a professional appearance. The included Cable Management (CM) Bar helps with routing cables, protects bend radius, and ensures excess tension is not placed on jacks or terminations.





BENEFITS

- Ideal for applications needing to support multiple, varied network connections within a single panel.
- Reduces labor time by allowing technicians to terminate jacks individually before inserting them into the patch panel.
- Reduces time for repairs by allowing individual jacks to be replaced without removing the panel.
- Ensures a clean, organized, and professional-looking installation with flush-mounted ports.
- Works with a wide range of Ortronics accessories.

KEY FEATURES

- High-Density Support – 48 ports in 1 rack unit
- Integrated label fields for easy port identification
- Cable management ready – CM bar can be ordered with panel
- Flush-mounted, available flat or angled, and in black or white
- Compatible with KT2J, KS jacks, multimedia connectors, blanks (KSB), Cat 5E, Cat 6, and Cat 6A
