Wattstopper PLUS Graphic Switch EN-GS-150

Bring simplicity and sophistication to spaces with the EN-GS-150—a sleek, durable, 5.7" high resolution color touchscreen with edge-to-edge glass face that redefines control. The EN-GS-150 graphic switch is a native Wattstopper PLUS PoE powered wired device with a 5.7" capacitive touch LCD display that enables simple control for complex spaces. The EN-GS-150 is ideal for office buildings, educational facilities, and healthcare spaces where multiple zones of control exist.

FEATURES & BENEFITS

- **Intuitive to Use:** Customizable button icons and text to make complex spaces easier for occupants.
- **Elegant Design:** Attractive streamlined aesthetic with full glass face, available in Black or White with aluminum trim.
- **Abundant Control:** A single wall control supporting up to 8 screens with 24 configuration buttons per screen for the most complex spaces and applications.
- **System-Wide Control:** Ability to control all load types connected to GreenBus, Wireless, and DALI managers.
- **Access Control:** Ability to passcode protect the user interface preventing unauthorized control in public areas or sensitive spaces.
